## // INTERESTS

## // OVERPOINT

My name is Sendhy Boedhi Satriya 40 years old, I was born in Solo June 22, 1980 .  
13 years of my journey to become a banker brought me to a new world which now has become the most interesting passion to work on, my interest in the world of IT gives me the spirit to learn to become a professional, with experience as a supervisor I am sure I will become a professional Project Manager, with a strong will to learn software testing and website security, hopefully it will be of added value to me and the company where I work later.
